Nice example of Second Life being used for a conference with facilitation methods. Special thanks to John Miller for bringing this one to my attention.

You can learn more at http://www.publicdecisions.com/mini_conferences_3.html

I would encourage team members to get a membership in Second Life and start walking through the SIMs. It's important to be a member for at least three months so you can then start to experience the economics of Second Life (e.g., get a job, earn money, pay taxes, etc). Membership to Second Life is free and learning from other people in Second Life is one of the best ways to really experience site.

If you have not done so, don't forget to join the ToP Dialogue Group in Second Life. It's will start gearing up in August. That group is focused on the use on ToP Conversation Method in Second Life.
