If you have an interest in Second Life, you can now join a group called the ToP Dialogue Group. This is a group set up to test the group function within Second life. To join:

a) Log into Second Life with your Avatar

b) Use the Search Engine in Second Life by clicking on the Groups Tab and typing in the Find space: ToP Dialogue Group

c) When the search result appears on your screen, click on the title, ToP Dialogue Group

d) Now the full profile of the group will appear along with the logo

e) Click on the button that states, View Full Profile

f) At this point, you can join the group

Once you have joined the group, that's it for now. I suspect you will see some group activity in mid August. For now, the group is just getting started.

Finally, for security purposes, please do not post your Second Life Avatar name in the Huddle Space or request real names for matching AV names.

Thanks and have a great day

Jerry

To find a set of interesting tools for use in SL, check out the Communal Whiteboard Visit http://metalab.blogspot.com for more information.
